

Václav Brzezina

Software Engineer

Profile

9 years building JavaScript products across the full stack - TypeScript and React on the frontend, Node.js and NestJS on the backend, AWS serverless in the cloud. Comfortable taking technical ownership of architecture, code quality and direction while staying hands-on with code. Currently Tech Lead on Burberry's O2O Clientelling platform at EPAM Systems.

Languages

English

Czech (Slovak)

Skills

Frontend
UI/UX, SEO, JS/Typescript, React.js, Next.js, Emotion/Styled components, Material UI, Redux, Redux Toolkit, RTK Query, React Hook Form, ReactQuery, GraphQL, Jest, Cypress

Backend
JS/TypeScript, Node.js, Express.js, Nest.js, REST, oData, GraphQL, Apollo/Apollo Server, TypeORM, Strapi, Elasticsearch, Jest, Supertest, Cucumber.js

Cloud technologies
Docker, AWS Lambda, AWS Step Functions, Api Gateway, EC2, EBS, Kinesis, SQS, SNS, S3, Cognito, CDK

Databases
MySQL, PostgresQL, Cassandra/DSE/AstraDB, Amazon DocumentDB, DynamoDB, Redis

Practices
CI/CD, Code Review, Code Standards, Accessibility

GenAI tools
Prompt Engineering Fundamentals, Claude, Claude Code

Education

Computer networking | Střední škola informačních technologií a. s. | 2012 - 2016

Work experience

Epam Systems | 2022 – Present | Lead Software Engineer

Burberry
Tech Lead
O2O clientelling tools
Participation on solution architecture design, technical team lead, coordinating with multiple streams
Technology: Typescript, React.js, MobX, AWS stack, Express.js, Nest.js

Walmart
Key developer
Software reliability engineering tool
Technology: React.js, Typescript, Redux, SWR, Ant Design/Styled-components, Cypress

Starky's Club | 2019 - 2022 | FE Lead

Carvago - Omnitec DMS
Senior FE developer
Car dealer management system
FE team lead, FE architecture, refactoring and improvements
Technology: React.js, Typescript, Redux, Next.js, Jira

3G project guide manager
Full-stack JavavaScript developer
Internal work reporting integrated to Giriton with modifiable exports to PDF
Participation on solution architecture design, leading developer
Technology: React.js, Typescript, SWR, MUI/Emotion, Nest.js, Postgres, TypeORM, AWS (EBS, Cognito, S3, CloudFront), Nx.js)

Inventi (Summit media)
Senior Technological Leader
Online PSA car configurator development
New architecture design, technological overhead, project management, team leading
Technology: React.js, Typescript, Redux, Next.js, Jira

Others
I participated on various other projects and in house activities

Etnetera a.s. | 2017 - 2019 | FE developer

Logio – pricing and promo tool
FE/BE developer
Comprehensive product tool for one food retail groups.
Technology: React.js, Node.js, Koa.js, Typescript, MobX

Veolia – customer self care portal
FE developer
Online self-care portal for customers
Technology: React.js, Redux.js, Sass, Typescript

Others
I participated on various other projects and in house activities
